Tortoise Tagger (계속)

```
\section{Channel List}\label{sec:ChannelList}
```

Use the channel list to change channels more easily.

Press the `\mi{OK}` button to open the channel list.

```
\para{Schedule a programme to record}
```

Select a programme entry and choose either `\ui{Once Record}` or `\ui{Series Record}`.

For details, see `\titleref{sec:SchedulingRecordings}` on page `\pageref{sec:SchedulingRecordings}`.

```
\begin{UI}
```

`\item[Service preview]` With this enabled, selecting a channel entry displays the channel's picture in the inset window on the upper right of the screen. Select it once more to switch to the channel.

With this option disabled, selecting a channel entry immediately switches to the channel.

`\item[Keep viewing service when exit]` With this disabled, pressing the `\mi{EXIT}` button switches to the channel that was focused on.

With this option enabled, pressing the `\mi{EXIT}` button closes the channel list without changing channels.

```
\end{UI}
```

ConvertDoc

http://www.softinterface.com/SII_Product_Information.htm

The screenshot displays the 'Convert Doc' application window. The title bar reads 'Convert Doc' - [Comprehensive Document Conversion. Command Line able.]. The menu bar includes 'File', 'Conversion', and 'Help'. The toolbar contains icons for 'New', 'Open', 'Add', 'Delete', 'Update', 'Rewind', 'Convert', and 'Pause'. Below the toolbar, there are three main sections for configuration:

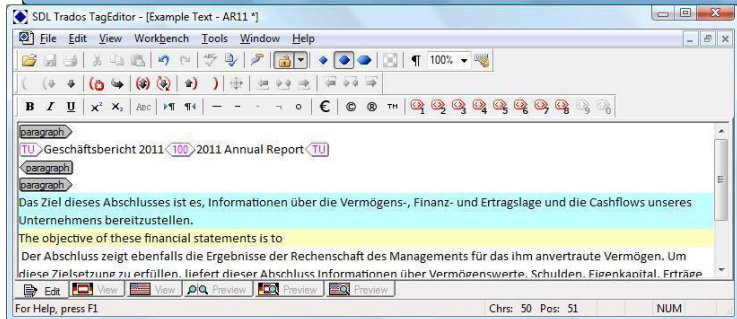

- Select Action To Do:** Radio buttons for 'Convert Files' (selected) and 'Special Processing on Files'.
- Select Input File/Folder and Format to Convert:**
 - Input File Format:** '[9] Microsoft Word 97-2003 (DOC)'.
 - Conversion Method:** Radio buttons for 'Use 'Convert Doc'' (selected), 'Use MS Word', and 'Convert from PDF to ???'.
 - Do Subfolders
 - Input File(s):** 'D:\tmp\transtest*.doc' with 'Folder..' and 'File..' buttons.
- Select Output File/Folder and Format to Convert to:**
 - Convert to File Format:** '[6] Unicode/Encoded Text' with Save to Input folder.
 - Output File(s):** 'D:\tmp\transtest*.txt' with 'Folder..' button.

At the bottom, there is a table showing the conversion progress:

#	Do	Input File(s)	Type	Output File(s)	Type	Pass
1	C	D:\tmp\transtest*.doc	DOC	D:\tmp\transtest*.txt	TXT	✓+
"						

Below the table are 'Select Files/Folders' and 'Log' buttons. The status bar at the bottom shows: '# - Progress: 100 Percent Complete D:\tmp\transtest\WatchingTV.tex.doc Total Time (Sec): 0.5'.
